High Flow Valve Actuation Range NAMUR Valves G1/4" & G1/2" Piped Valves G1/4" & G1/2" Banjo Valves G1/8" & G1/4" for Control of Pneumatic Actuators

Market Description

Process industries
Chemical, Petrochemical industries
Oil & Gas
Water & Sewage
Pulp & Paper
Food & Beverage
Pharmaceutical industry
Powder Dosing-Transportation
Air Dryers

Control of single or double acting pneumatic actuators, in safe or dangerous areas.

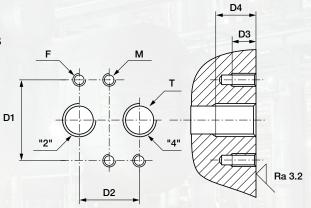

NAMUR Interfaces 1/4" & 1/2"

The interface design is conform to the NAMUR standard and to the VDI/VDE 3845 recommendations of the actuator industry. It allows a compact design of the actuator/valve unit. In case of a 3/2 function, the air of the actuator spring chamber also flows through the pilot valve (re-breather function). This prevents corrosion of the actuator springs.

F	Т	D1 mm			D4 min. mm	M mm	
M5	1/4	32	24	8	12	M5	
M6	1/2	45	40	10	16	M6	

F: 2 mounting holes - T: 2 actuators control port - M: 2 holes for dowel pins

Customer Value Proposition

- High flow: 1.250 l/min (1/4"), 3.000 l/min (1/2")
- Compact design
- Long life expectancy
- Coil Modularity: a large part of the range is compatible with different types of coils, ATEX, non ATEX and Low Power
- Fail safe standard
- Reduced inventory (3/2 & 5/2 functions with the same valve on 341Nx5 series)
- Mechanical part of the valve ATEX certified according standard EN 13463-1 & -5 (with maximum capability of zone 1-21)

General Information

Function:	3/2, 5/2, 3/2 <=> 5/2 and 5/3 valves.
Manual override:	Standard on all versions.
Design:	Nxx & Pxx Series: Solenoid operated spool valve with combined spring and air return & external air pressure operated versions. B0x Series: Solenoid direct acting valve with spring return.
Mounting:	Nxx Series: For direct mounting on NAMUR interface 1/4" & 1/2" Pxx Series: Piped valves G1/4" & G1/2" Bxx Series: Equipped with a banjo bolt G1/8" or G1/4"
Mounting position:	Indifferent.
Material specifications:	Aluminium body. Internal parts of stainless steel. Sealing material from NBR.
Range of admissible pressure drop:	Δp min. = see table. Δp max. = 10 bar.
Media:	Dry or lubricated air.
Fluid temperature:	-20°C to +50°C
Ambient temperature:	-20°C to +50°C
Electrical part:	N0x / P0x / Bxx series are compatible with coils 496131 / 496482 / 496637 N3x / P3x series are compatible with coils part of electrical group 2.0 (8/9W), including 481865 / 495870 / 495905 N3x90 series are compatible with coils from electrical group 6.0,7.0,8.0 including 495900,495910,483580.01. N3x96/97 series are compatible with coils from electrical group 6.0 & 8.0 including 482740, 496125, 495910, 495900.
Solenoid duty:	100% ED.
Voltage:	From 12 VDC to 48 VDC From 24 VAC to 230 VAC
Voltage tolerance:	See coil specification
Class of insulation material:	Class F or H
Standards:	Mechanical ATEX conform to EN 13463-1 & -5.

COIL GROUP

1.2

COMPACT COILS FOR N03 - N04 - N05 Series DIN PLUG CONNECTION

This coil can be mounted with every Parker solenoid valves corresponding to the specified Coil Group. See column "Coil Group" within valve pages. This coil is designed for valves equipped with a miniature tube assembly. This is an encapsulated assembly comprising a coil, integral magnetic iron path.

The synthetic material encapsulation provides an effective compact housing, offering full protection against dust, oil, water, etc. Ease of mounting in confined space - offers shock and corrosion protection - simplifies conversion of existing equipment to other requirements, etc. Coil conforms to the IEC/CENELEC safety standards and complies with European low-voltage directive.

DIN plug connector to be ordered separately (see coil accessories section).

COIL GROUP

1.2

COMPACT COILS FOR N03-N04-N05 Series Non Sparking Protection - DIN PLUG

This coil can be mounted with every Parker ATEX solenoid valves corresponding to the specified Coil Group. See column "Coil Group" within valve pages.

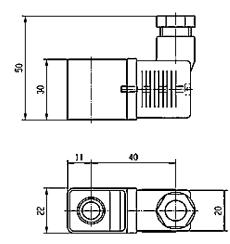

Control of solenoid valves in dangerous areas where explosion-proof protection is required.

The synthetic material encapsulation of the coil provides an effective compact housing, offering full protection against dust, oil, water, etc. Small size for ease of mounting in confined spaces.

COILS FOR N33-N34-N35 Series DIN PLUG CONNECTION

These coils can be mounted with every Parker solenoid valves corresponding to the specified Coil Group.

See column "Coil Group" within valve pages. This is an encapsulated assembly comprising a coil, integral magnetic iron path and snap-on plug connection.

The synthetic material encapsulation provides an effective compact housing, offering full protection against dust, oil, water, etc. Ease of mounting in confined space - offers shock and corrosion protection - simplifies conversion of existing equipment to other requirements, etc.

Coils conform to the IEC/CENELEC safety standards and complies with European low-voltage directive.

To Order a Coil choose Coil Ref + Voltage Code, example: 481865 for 24 VDC = 481865C2

These coils must be used with suitable housings, see example below:

The coil assembly kit **Ref. 2995** corresponds to the "housing" of Lucifer® valve numbering system (Valve - housing - coil - voltage). It is composed of a nameplate, a label giving details of the valve type, a round washer and a nut to ensure the fixing between 32 mm coil and the valve.

Coils and Spare Parts Informations

COIL GROUP

2.0/2.1

COILS FOR N33-N34-N35 Series **SCREW TERMINAL**

These coils can be mounted with every Parker Solenoid Valves corresponding to the specified Coil Group.

See column "Coil Group" within valve pages. They can be mounted with all metal housings.

The coil winding is completely encapsulated in synthetic material. Easy mounting in confined spaces. Electrical connection with screw terminals for wire up to 1.5 mm².

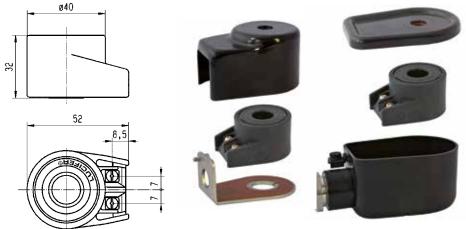

Coils conform to the IEC/CENELEC safety standards and complies with European low-voltage directive.

To Order a Coil choose Coil Ref + Voltage Code, example: 482740 for 24 VDC = 482740C2

These coils must be used with suitable housings, see example below:

The coil assembly kit **Ref. 2995** corresponds to the "housing" of Lucifer® valve numbering system (Valve - housing - coil - voltage). It is composed of a nameplate, a label giving details of the valve type, a round washer and a nut to ensure the fixing between 32 mm coil and the valve.

Coils and Spare Parts Informations

COIL GROUP

2.0/2.1

COILS FOR N33-N34-N35 Series Non Sparking Protection - DIN PLUG

These coils can be mounted with every Parker ATEX solenoid valves corresponding to the specified Coil Group. See column "Coil Group" within valve pages.

Application: Control of solenoid valves in dangerous areas where non sparking protection Ex nc AC IIC T3 to T4 is required.

Ease of mounting in confined space - offers shock and corrosion protection - simplifies conversion of existing equipment to other requirements, etc. Coils conforms to the IEC/CENELEC safety standards and complies with European low-voltage directive.

Small size for ease of mounting in confined spaces.

To Order a Coil choose Coil Ref + Voltage Code, example: 483580.01 for 28 VDC = 483580.01N7

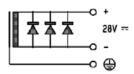

These coils must be used with suitable housings, see example below:
The coil assembly kit Ref. 2995 corresponds to the "housing" of Lucifer® valve numbering system (Valve - housing - coil - voltage). It is composed of a nameplate, a label giving details of the valve type, a round washer and a nut to ensure the fixing between 32 mm coil and the valve.

Important

The intrinsically safe supply circuit should have enough capacity in all environmental conditions to assure a minimum operating current of 35 mA through the coil.

The minimal holding current is 20 mA.

For the barrier compatibility see the corresponding table in appendix section.
